BELMARK Industries
Manufacturer of Hydraulic Machines & Equipments

WELCOME TO BELMARK INDUSTRIES

BELMARK INDUSTRIES is situated at Belagavi, Karnataka state, India. We are engaged in manufacturing and trading of Hydraulic Machines and Equipments such as Hydraulic Presses, Hydraulic Power Pack, Hydraulic Cylinder and accessories like Bell Housing, Coupling, Gear pump, Manifold etc.

Our fully equipped engineering infrastructure allows us to manufacture to customer's design or our own design that fully meets customer application requirements. BELMARK Industries is well known for its Concept, Design, Production, Testing, On Time Delivery and After sales support. The BELMARK Industries Quality System is dedicated to excellence in meeting the requirements of customers across nation. BELMARK Industries with its classic range of Hydraulic Cylinders and Hydraulic Power Packs caters to the needs of industries such as Material Handling, Machine Tools, Steel Plants, Mining, Industrial, Construction, Mobile Equipment's and Special Purpose machine building Industries etc.,

Our organization has gained huge expertise in our business domain, which enabled us in growing our business knowledge to meet specific requirements of our clients. With the assistance of our expert team of engineers and state-of-art infrastructure, we are successfully meeting the production demands.

PRODUCTS

HYDRAULIC PRESS

We are engaged in manufacturing and supplying a wide array of H-TYPE as well as C-Frame Hydraulic Presses. The offered machines are fabricated using premium quality raw material and advanced technology that ensure their durability. These Machines are available in various specifications as per the needs of our prestigious clients. Our offered machine finds applications in various industries such as Stamping, Punching, Metal Forming, Engraving, Moulding, Deep Drawing, blanking & Forging industries.

HYDRAULIC RUBBER MOULDING PRESS

We are the leading manufacturer of the supreme quality AUTOMATIC RUBBER MOULDING PRESSES. we provide the best possible RUBBER MOULDING PRESS at a very affordable price. This machine is well equipped with latest technology and provides a reliable warranty. This machine is well equipped with latest innovation and the best possible techniques.

We make these RUBBER MOULDING PRESSES as per customer requirements like Single Station, Double Station, Single Daylight, Double Daylight and Triple Daylight which can be controlled by either HAND DCV, AUTOMATIC PUSH BUTTONS, PLC etc.

HYDRAULIC WORKSHOP PRESS

As a renowned organization, we are engaged in offering an extensive range of Hydraulic Workshop Press to meet the demands of our clients. Latest equipments and modern machines are used while manufacturing these products. These products are well equipped and are compact in design. All these products are resistant to corrosion and abrasion.

HYDRAULIC SCRAP BALING PRESS

BELMARK make HYDRAULIC SCRAP BALING PRESSES have a reputation of excellence for quality, workmanship and reliability in the past few years & have been designed for a very long operational life. BELMARK's Hydraulic Scrap Baling Press are available in Single compression, Double Compression(with ejector cylinder & manual door), Triple compression which are suitable for all type of scraps like Stainless steel, M.S. Scrap, Aluminium, Brass, Copper and other industrial sheet & specially designed vertical presses are suitable for Coir, Cotton, Industrial and Agricultural waste, Paper baling etc.

HYDRAULIC BIKE & CAR RAMP

We are an eminent name, which is engaged in manufacturing and trading the finest quality Two Wheeler Hydraulic Lift to our clients. The offered hydraulic lift is available in different technical specifications to cater the various requirements of esteemed clients. Our entire product range is in compliance with international standards of quality and is highly efficient in nature. They are sturdy in construction and have optimum strength. Moreover, we offer the entire product line at leading industrial rates.

HYDRAULIC POWER PACK

Hydraulic Power Pack unit are the main driving equipment of hydraulic systems. We design these hydraulic power packs efficiently for meeting all the industrial needs. Best Quality hydraulic accessories like Pressure gauges, Gauge isolators, return line fillers, suction strainers are used in manufacturing. These hydraulic power packs offered by us are easy to install and operate hence widely appreciated in the market.

Our hydraulic power packs ensure flawless functioning and require very low maintenance, hence greatly reducing the maintenance cost. We offer these industrial hydraulic power packs in different sizes and specifications as per the requirements of our clients.

HYDRAULIC CYLINDER

BELMARK is one of the renowned Hydraulic Cylinders manufacturers in India offering an exclusive range of hydraulic equipments to the clients. We offer these hydraulic cylinders in different pressure ranges based on the requirements of our clients. Our hydraulic cylinders enhance smooth operation during all heavy duty applications hence highly beneficial since it can work under all pressure conditions. Customers can avail these cylinders in different grades based on their requirements. We offer these hydraulic cylinders in competitive prices.

HYDRAULIC ACCESSORIES

HYDRAULIC BELL HOUSING

HYDRAULIC EXTENSION BRACKET

HYDRAULIC JAW COUPLING

HYDRAULIC SUB-PLATE

HYDRAULIC GEAR PUMP

HYDRAULIC MANIFOLD

HYDRAULIC BONDED SEAL AND COPPER WASHER

HYDRAULIC HAND PUMP

Hydraulic System Care & Maintenance

As well as the manufacture of new equipment we service, maintain and refurbish all types of hydraulic and mechanical equipment on and offshore covering all industries. Our hydraulic services are underpinned by continual investment in product development, manufacturing and, most importantly, our people. This approach allows us to be a leading company in delivering hydraulic systems. Everything we do is focussed on giving you quality and performance in industrial hydraulics.

BELMARK INDUSTRIES provides a full repair and overhaul service for all hydraulic equipment and machinery. Types of repair and refurbishment include hoses and fittings, filters, pumps and valves, cylinders, power packs and motors etc. We can carry out full refurbishment and repairs either at the customer's premises or at our own facilities as required. No job is too large or too small for BELMARK. Why not contact us to avoid expensive equipment downtime?

BELMARK's AMC - L-I

A Service offering that satisfies your requirement of stringent Service conditions such as Availability, Response Time and other desired parameters.

BELMARK's AMC L-I Premium includes Preventive Maintenance, Breakdown Attention and Planned Repair. Most of the working

spares are included but those components which are accessible to the end user are kept out of scope in order to optimize the solution. Additional Service demands such as commitments on Availability, Response Time, Resolution time, BELMARK's Presence etc. are complied with in this package. This solution is very ideal and there is normally a Facility Management team available at site to monitor performance levels. Certain advanced coverage of Spares and Labour can also be a part of this package. Generally, the BELMARK AMC L-I Premium is a customized solution depending on the Customer's requirement.

BELMARK INDUSTRIES SERVICE PROCESS

BELMARK's AMC - L-II

A Service offering that fulfils your Maintenance requirements and also suits your budget.

BELMARK AMC L-II Plus includes Preventive Maintenance, Breakdown Attention and Planned Repair. Most of the working spares are included while those components which are accessible to the end user are kept out of scope in order to optimize the solution. This solution is ideal for Cylinders and Power Packs which have a moderate usage pattern.

BELMARK's AMC - L-III

Safety compliance that keeps you worry-free about Hydraulic System maintenance

BELMARK's AMC L-III Standard ensures full compliance with all relevant laws and regulations. Preventive Maintenance is included in this solution, with service repairs being invoiced separately. You have access to reliable, quality service. This solution is excellent as a low cost option where there is a possibility to keep the equipment under shut down till the spare installation is completed.

BELMARK ensure 24/7 support for the customer and end user. BELMARK has a systematic process to follow through service requests from receiving the call, to dispatching a technician, to successful resolution of the request.

Maintenance Tips

What to do if an HYDRAULIC SYSTEM stops operating

In some cases, performing a few simple checks can help you get equipment back into operation quickly.

If a problem is reported, confirm the situation and then call the BELMARK INDUSTRIES Center.

Make sure that there are no obstructions near by SYSTEM.

Check that all the Operations in the System are functioning properly.

Have a qualified person check if there is a tripped breaker on the main power supply.

For immediate assistance, contact BELMARK INDUSTRIES Center
